Comments on the Group's meeting Facilitator. Name of the Facilitator: Michelle Gaudette

Michelle Gaudette is an excellent Facilitator. Michelle did a great job of getting the group together and on task. Michelle was generous with her time and knowledge and patient and helpful with the group.

My suggestions, ideas on how to improve CL group work, comments on the group meeting and its management:

I believe with time the group meetings will go smoother as our knowledge of technology increases. Things took more time because we were not sure how to complete the tasks. I believe as we become more technology literate things will take less time.
